MASNET No. 18 OF 07.08.2002
Announcement No. 33

SEMBCORP INDUSTRIES LTD

**Management Moves at SembCorp Engineers & Constructors
- Resignation of Paul Chain, President & CEO**

Mr Paul Chain, President & CEO of SembCorp Engineers and Constructors (SembE&C) - the engineering and construction Key Business of SembCorp Industries -- has submitted his resignation which was accepted today. He will leave the Group in November 2002 and SembCorp Industries has identified a successor who will be named shortly.

Mr Chain, who is leaving for personal reasons, joined the construction arm of STIC - Singapore Technologies Industrial Corporation - in 1984 as a Project Manager and was promoted to General Manager in 1992.

He helped turned STIC's construction company into one of Singapore's foremost turnkey builders with strong overseas operations, particularly in China.

Mr Wong Kok Siew, Deputy Chairman & CEO of SembCorp Industries, said, "As President & CEO of SembE&C, Paul shifted its business focus to higher-value civil engineering and infrastructure projects."

"He also saw the need to develop an upstream engineering design capability and led the acquisition of Simon-Carves (UK) which has made SembE&C internationally competitive in bidding for pharmaceutical, petrochemical and agrochemical projects."

"Paul is a thorough professional whom I have enjoyed working with for nearly 18 years. He has his plans and he leaves with best wishes from me and from all of us at SembCorp Industries."

Background on SembE&C

SembCorp Engineers and Constructors is one of the five Key Businesses of SembCorp Industries, the others being Utilities, Environmental Engineering, Logistics and Marine Engineering.

SembE&C presently has an orderbook of \$2.1bn of which about 80 per cent are for projects in Singapore.
